Dear Assistant Clerk Committees

INQUIRY INTO THE FIREFIGHTERS' PRESUMPTIVE RIGHTS COMPENSATION AND FIRE SERVICES LEGISLATION AMENDMENT (REFORM) BILL 2017

1. I am

[insert

- rank/classification/position
- name of the employer.
- include length of service,
- qualifications
- specialist qualifications
- awards/commendations]

2. I live in [insert location] and work in [insert location].

3. I also volunteer in my community [insert where and when, length of service etc]

4. I am writing this submission in support of the proposed reform of the fire services for the following reasons:

[Insert your reasons – some themes are listed below that you would put in your own words – or you may have other points to make]:

- *Reasons why as a firefighter that it is important to have guaranteed backup - guaranteed that two trucks with at least 7 firefighters will be dispatched within 8 minutes.*
- *What that response means for better community safety and protection*
- *How employing all career firefighters in one fire service will not affect volunteer turnout or surge capacity*
- *That volunteer support will be maintained with operational firefighters (OO's OMs etc being employed by FRV but continuing their roles through an arrangement with CFA)*
- *That the reform areas are around the 35 integrated stations primary response areas – no effect on other volunteer brigades or bushfire response*
- *The 35 areas are now highly urbanised – high residential and other risks*

- *The reform will assist with standardisation of career training/specialist response/response standards and equipment etc*
- *Why it is better to have all career staff being employed by one fire service*
- *The damage the disputation in the workplace has had on your workplace and any additional strain that has had on you and your family.*
- *The reform will benefit volunteers as it has included a package to assist with volunteer recruitment and retention across the CFA; and includes funding for volunteer station upgrades etc*

5. Below are examples from my experiences which demonstrates the failures of the current structure:

6. I attach the following documents:

Yours sincerely,
